

cürv™

THE SMART THERMOSTATIC WIRELESS RADIATOR VALVE

curv360.co.uk • CURVRV01

SAVES MONEY

FITS 99% OF ALL RADIATORS

EASY INSTALLATION

SMART APP CONTROL

OPEN WINDOW DETECTION

LCD INTERFACE

INDEPENDENT ROOM HEATING CONTROL!

Features

Designed for independent controlled heating with remote monitoring via smart phone (requires Cürv gateway) and can be fitted to new or existing thermostatic radiator valves (TRV).

Technical Data	
Thermostat Type	Programmable electronic radiator valve controller
Power Supply	2 x 1.5V AA alkaline batteries
Battery Life	Up to 1 year (Lithium batteries recommended)
Ambient Temperature	0°C ~ 50°C
Storage Temperature Range	-10°C ~ 60°C
Accuracy	±0.5°C
Dimensions	L:85mm, Ø :50mm
Colour	White
Spring Force	80N≤F≤130N
Connection	M30x1.5mm
Radio Frequency	868MHz
Radio Range	100M (Unobstructed)
IP Class	IP21
