Energy Efficient Infrared Heating

The CURV® Glass Infrared Heating Panels offer a perfect balance of style, performance, and control. Featuring a sleek, high-quality toughened glass finish, these wall-mounted heaters use advanced infrared technology to warm people, furniture, and surfaces directly. This reduces heat loss and creates a consistently comfortable environment.

Built-in thermostat control and smart app connectivity let you set schedules, monitor usage, and manage each room individually, so your heating adapts effortlessly to your lifestyle while keeping energy use in check.

- Built-In Safety – Child lock and safe surface temperature (43°C)
- Eco-Friendly Operation – Multiple heat settings with Eco Mode
- Fast & Efficient – High thermal efficiency with low running costs
